

Invitation to State Partners and Vendors:

The Governor's Commission on Innovation, Efficiency, and Transparency in State Government has determined that it is essential to receive input from individuals and entities across New Hampshire regarding their ideas and priorities for our charge. We have put together a plan to gather that input through a series of programs hosted by NH Listens out of the Carsey Institute at UNH. NH Listens specializes in facilitating the gathering of exactly the type of input we are hoping to receive. In addition to events for the public held in six locations across the state on June 3rd, we are hosting a conversation specifically for state partners and vendors. We are confident the sessions will allow state partners and vendors to have an opportunity to inform our work in a very direct way. We hope you will join the conversation.

A Conversation for Vendors and State Partners

(one date, one location)

June 23rd

9:00 – Noon

Concord - Grappone Center

Please register [HERE](#) in advance
